Tokyo International Forum

Tokyo International Forum consists of eight large and small halls, 31 conference rooms, and a giant glass atrium. Each section has its own prominent personality and features, while offering flexibility to accommodate a versatile range of uses. One strength of Tokyo International Forum as a convention and art center is its ability to create a sense of unity in large-scale events that make use of the entire building, combined use of hall-to-hall spaces, and hall-to-conference room spaces.

The hall building and glass building are connected via concourse on the first floor and via bridge on the fourth, fifth, and sixth floors.
You can go to the "4, 5, 6F" of G Block through the Bridge.
You can go to the "4, 5, 6F" of G Block through the Bridge.
